

In the Claims

Claims 79-86 remain pending in the present application. Claims 1-78 were previously canceled.

Claims 1-78 (previously canceled)

79. (previously added) A composition comprising, a soy protein material containing at most 4000 mg/kg ribonucleic acids and being substantially devoid of ribonuclease enzymes.
80. (previously added) The composition of claim 79 wherein said soy protein material is a soy protein isolate or a soy protein concentrate.
81. (previously added) The composition of claim 79 wherein said soy protein material contains less than 2000 mg/kg ribonucleic acids.
82. (previously added) The composition of claim 79 wherein said soy protein material contains less than 1500 mg/kg ribonucleic acids.

Please amend claims 83-86 as follows:

83. (currently amended) The composition of claim 79 [containing 0.45% or less] wherein phytic acid comprises at most 0.45% of said soy protein material [,] by weight.
84. (currently amended) The composition of claim 83 [containing 0.2% or less] wherein phytic acid comprises at most 0.2% of said soy protein material [,] by weight.
85. (currently amended) The composition of claim 84 [containing 0.1% or less] wherein phytic acid comprises at most 0.1% of said soy protein material [,] by weight.
86. (currently amended) The composition of claim 79 wherein said soy protein material [containing] contains less than 3000 ppm phosphorus.
